### PROGRAM OF ROAD IMPROVEMENT PLANNED

**Brainerd Automobile Club to Give \$50  
for Repairing Mill Street Road,  
if Council Does Same**

**South Road to Gull Lake to be Brushed Out,  
Ten New Members Added to the  
Membership Rolls**

The Brainerd Automobile club, under the leadership of S. R. Adair, is pledged to do constructive work and the program is revealing itself in a road program of extensive proportions. The club will pay \$50 for the improvement of the Mill street road in Northeast Brainerd if the council follows up with a like amount.

The south road to Gull lake is to be brushed out by volunteer parties of automobile men. Overhanging trees and brush are to be removed and narrow curves straightened out. This road bee will be under the direction of O. A. Peterson.

Can, rubbish and dirt dumping on the highway leading to Gull lake is to be stopped and the offenders dealt with according to law. The "Rock Picking Bee" to be held on city streets did not materialize with a volunteer force and conscription may be restored to. One man showed up in the Chamber of Commerce and left his rake in the billiard room.

John Mahlum, chairman of the membership committee, has filed a comprehensive list of members and their addresses. Ten new members have been added since last meeting. Regular meetings of the club will now be held every two weeks.

**Suspects Arrested  
at Little Falls and  
Other Places**

(By United Press)  
Minneapolis, April 27—Seven suspects are under arrest at Little Falls, Olivia and at Eau Claire, Wis., in connection with the mysterious disappearance of Patrolman Connery. The northwest is being combed and the police are baffled.

**Bragdon's Conviction  
Affirmed by the Court**

(By United Press)  
St. Paul, April 27—The conviction of J. W. Bragdon, Minneapolis club man, of misconduct with young girls, was affirmed by the court.  
Bragdon was convicted in 1916 on the testimony of several young girls and sentenced to the penitentiary for from one to seven years. Sheriff Otto Langum and County Attorney John M. Rees and their assistants were on the alert today. Bragdon, who until Tuesday was living in the Dyckman hotel, was not in the city. Since his conviction he has been at liberty on \$35,000 bail.

**Socialists Want  
Senator Raguse  
to be Returned**

(By United Press)  
Madison, April 27—The Wisconsin socialists announce that they will throw their whole strength into the effort to reelect State Senator Raguse who was expelled because of alleged disloyal remarks.

**Theft of Sugar  
and Food Products  
for Personal Use**

(By United Press)  
Chicago, April 27—A force of detectives are endeavoring to ferret out who the perpetrators of the prevalent food thefts are. Last night 5,000 pounds of sugar was stolen and other staple articles taken. The indications are that many thieves are stealing for personal consumption.

**Food Conservation  
for Public Safety  
Order Being Drawn**

(By United Press)  
St. Paul, April 27—Food conservation will be the next step of the public safety commission, and Gov. Burnquist is said to be preparing an order regarding food, the contents of which has not yet been disclosed.

**Fishing to Relieve  
the Food Situation**

(By United Press)  
Washington, April 27—Rex Field asks congress to appropriate \$50,000 to relieve the food situation by introducing industrial fishing into more general use.

**Champ Clark Strikes  
at Gerard for His  
Conscription Stand**

(By United Press)  
Washington, April 27—Champ Clark strikes back at former Ambassador Gerard and other critics for his (Clark's) stand against conscription. Clark denounced Gerard for what he termed malicious remarks and preposterous lies.

**ENGLISH ATTACK AT ARRAS  
REPULSED WITH HEAVY LOSS**

(By United Press)  
Berlin, April 27—The English attack at South Scarpe on both sides of the Arras-Ambrai road was repulsed with heavy losses in hand to hand fighting. The official statement says that the allies lost eleven aeroplanes on the western front in Macedonia and the Germans two.

**SHELLS FROM RAIDERS  
KILL AND DO DAMAGE**

(By United Press)  
London, April 27—Shells from the German destroyer raiding squadron falling on Ramsgate killed a man, woman and injured three, besides damaging 21 houses. The official patrol vessel drove the raiding warships off.

EARL OF SUFFOLK.

American Woman's Titled  
Husband Killed in Action.

Henry Molyneux Paget Howard, nineteenth earl of Suffolk and Berkshire, has been killed in action.

The Earl of Suffolk and Berkshire was born in 1877 and succeeded his father to the title in 1908. In 1904 he married Margaret Hyde (Daisy) Leiter, the youngest daughter of the late Levi Z. Leiter of Chicago.

**Early Peace Basis  
Socialist Bureau  
Tells the Public**

(By United Press)  
Copenhagen, April 27—"If all the governments would permit delegates to attend the socialist convention they may be expected to form the basis for early peace," declared Pres. Troelstra of the international socialist bureau.

**Give Coal and Iron  
Preference over all  
Railroad Shipments**

(By United Press)  
Washington, April 27—Chairman Harrison of the railway national defense committee announces that all railways will be ordered to give coal and iron the preference over all other traffic. The coal situation in Italy and France is acute the French commission hints.

**Borah will Retire**

(By United Press)  
Washington, April 27—Senator Borah announces that he will retire from the senate at the end of his present term.

**Complete Support  
Accorded Allies  
Shipping is First**

(By United Press)  
Washington, April 27—Foreign Minister Balfour has cabled his first report of the war conference to England and will say to his people that the American government has assured its complete support to the end that victory may be achieved.

Shipping will be the first problem to demand the attention of the American government and that will be divided equally between the sending of munitions and food to the people of the allied nations. The allies commission agree that the supplying of men can wait.

America will let the allies determine what is wanted and have agreed to supply munitions, food and men in the order that may be determined as most necessary.

+ PUT ON WAR BASIS +  
+ TO LOWER PRICE BREAD +  
+ IS THE MAIN OBJECT +

(By United Press)  
Washington, April 27—To combat the high cost of food-stuffs the department of agriculture is to be put on a war basis, increasing the production of wheat and lowering the price of bread being the main objects and congress will be asked to pass legislation to make this possible.  
Assistant Secretary Vrooman believes the placing of the department on a war footing like the navy and war departments will enable it to cope with the sudden boosting of prices.

**Lloyd George Thinks  
Victory is Assured**

(By United Press)  
London, April 27—"Victory is becoming increasingly assured," is the confident note sounded by David Lloyd George in his Guildhall speech. "The government is planning the 1917 wheat harvest with three million acres available, and guaranteeing that we wouldn't starve if not a single ton was imported, but we must economize," the premier said.

**GEN. HAIG REPORTS  
GERMANS IN FLIGHT**

(By United Press)  
London, April 27—The capture of the quarries in the eastern outskirts of Hargicourt is officially reported by Gen. Haig, and that the Germans are fleeing, abandoning their rifles and equipment.

(By United Press)  
Paris, April 27—Gen. Nivelle gained more ground around Gerny says an official report, and has stormed and captured the German trenches on the heights at Moronvilliers.

**\$23,000,000 in Steel  
Awaits Redemption**

(By United Press)  
London, April 27—Millions of shells from German and French guns of various calibres have left the battlefield of Verdun holding a veritable mine of ready refined steel. So great is the store of scrap metal that the steel industry is figuring the advantages of trying to rake the blood-soaked area of France's supreme resistance, when the war is over, to redeem the fragments.

Military reports on many days calculated that a million or more projectiles had fallen into the area in 24 hours. The steel trade, however, prefers to estimate that Verdun was hammered at the moderate rate of a million a week.

A total weight of 1,350,000 tons is believed to await profitable redemption from the area of the fortresses. At the present price of scrap steel \$17.50 a ton, the deposit is worth \$23,625,000.

#### MAY NEED 5,000,000 MEN

Montana Senator Favors Sending Big Army to Europe.

Washington, April 27—The United States may have to raise an army of 5,000,000 men before the war is over. This was the declaration by Senator Myers, Montana, of the military committee, during the debate on the administration's conscription bill.

Senator Myers, favoring the draft said he "believes fully this country will send an army overseas to fight in the trenches."  
"I'm glad this is to be not merely a war on paper, or with our dollars only. Such a war would be un-American," he said.

The special committee on garden tracts met at the Chamber of Commerce and Chairman R. B. Withington presided. Work was subdivided. The survey of the city for vacant lots was assigned Mr. Withington, Dr. J. A. Thabes, E. A. Colquhoun and Fred T. Lincoln.

Instruction in gardening was assigned County Agricultural Agent E. A. Colquhoun.

The listing of the worthy poor who may need garden seed was assigned B. J. Broady of the Associated Charities, and Mrs. J. A. Thabes.

Interesting the high school boys in ascertaining the names of owners of vacant lots in their wards was assigned H. A. Pflughoeft.

City team and plowing was assigned Alderman Frank G. Hall.

Eight boys have a tract of an acre on East Oak street and are entered in the state potato contest. The Chamber will encourage boys and girls in their work, \$25 having been voted for cash prizes.

The first lecture on gardening will be given next Tuesday evening, May 1, at the Chamber of Commerce, a representative of the University Farm having been secured as lecturer by County Agent Colquhoun. Regular weekly meetings on garden culture will follow.

The Chamber of Commerce is maintaining lists of those desiring employment on farms and two were placed on farms Thursday by Secretary Lincoln.

Split log drags as advocated by the Chamber are being applied on the roads of the county. The association has given farmers a dozen or more.

#### ILLINOIS MEMBER HISSSED

Slam at President is Resented in House Galleries.

Washington, April 27—Hisses from the galleries greeted Representative Mason, Republican, of Illinois, when he assailed President Wilson for failing to accept immediately Colonel Roosevelt's offer to raise a division for service in France. A few members joined in the demonstration.

"The man in the White House has not the courage or political sagacity to permit the colonel to enlist for fear he will profit politically," was the sentence which drew the hissing.

#### ROAD DONATES IDLE LAND

Railway Wants All Unused Montana Property Farmed.

Butte, Mont., April 27.—Orders were received here from President Earling of the St. Paul road directing all unused ground immediately be devoted to agricultural purposes.

The road will co-operate with the several state departments of agriculture and labor organizations to increase production of foodstuffs. Parkings around depots in Montana will be immediately spaded for gardening.

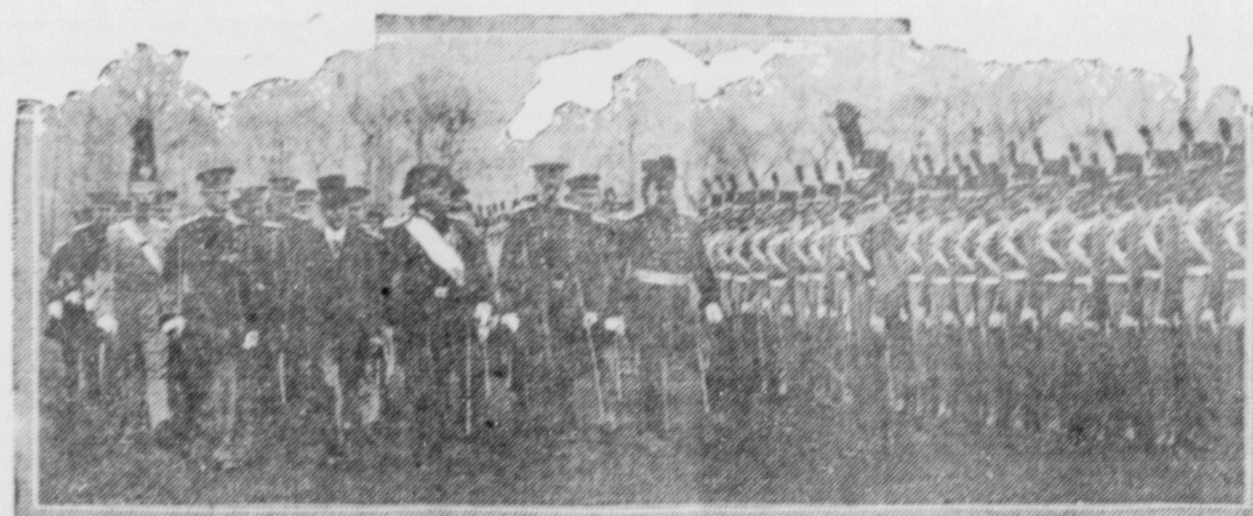

#### MAY CHOOSE SCHEIDEMANN

German Socialists Will Select Constituent Committee Chairman.

Amsterdam, April 27.—The Berlin Vorwaerts, pointing out that it is the turn of the Social Democratic party to appoint a chairman of the constituent committee of the reichstag, says that Philipp Scheidemann, leader of the majority Socialists, will be elected.

The Vorwaerts regards this as a very hopeful beginning for the reform of the constitution.

### West Point Graduating Class Now Ready for the First Line

One hundred and thirty-nine magnificent young men were graduated from West Point April 29, and they are now ready for the firing line in Europe or for training troops here. This photograph shows them lined up on the parade ground before graduation as they are reviewed by Colonel Biddle, superintendent of the academy, Secretary of War Baker, General Hugh L. Scott, chief of staff, Colonel Henry, and General William M. Black.

**HAVE COLOR IN YOUR CHEEKS**

Be Better Looking—Take  
Olive Tablets

If your skin is yellow—complexion  
pallid—tongue coated—appetite poor—  
you have a bad taste in your mouth—a  
lazy, no-good feeling—you should take  
Olive Tablets.

Dr. Edwards' Olive Tablets—a sub-  
stitute for calomel—were prepared by  
Dr. Edwards after 17 years of study  
with his patients.

Dr. Edwards' Olive Tablets are a  
purely vegetable compound mixed with  
olive oil. You will know them by their  
olive color.

To have a clear, pink skin, bright eyes,  
no pimples, a feeling of buoyancy like  
childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the  
liver and bowels like calomel—yet have  
no dangerous after effects.

They start the bile and overcome con-  
stipation. That's why millions of boxes  
are sold annually at 10c and 25c per  
box. All druggists. Take one or two  
nightly and note the pleasing results.

German Guns Fire Many Large Shells  
at Famous Old Structure, Causing  
Considerable Damage—One Tower  
Leaning So Its Stability May Soon  
Give Way.

London, April 27.—There were no  
infantry engagements along the Ar-  
rass front Thursday, so far as the British  
and German official communications  
have made known.

London reports nothing except ar-  
tillery activity at various points,  
while Berlin merely asserts there is  
nothing of importance to report.

The only thing saving of an in-  
fantry clash occurred southeast of  
Ypres, where the Germans attempted  
to raid a British crater post, but were  
driven off with casualties.

Likewise on that part of the line  
held by the French there has been a  
similar letup in the fighting, except  
by the big guns.

After their sanguinary repulse  
Wednesday the Germans did not re-  
turn to the attack Thursday in the  
Sheldin-des-Dames region northeast  
of Soissons. They also failed to re-  
new their counter attack west of Sois-  
sons.

The Germans violently shelled the  
sectors west of Cerny and in the re-  
gion of the Hurtelbise farm.

In the Avescourt wood in the Ver-  
dun region the Germans made an at-  
tempt to wrest positions from the  
French, but were repelled by grenades.

Stung by the steady advance on the  
French front the Germans threw fif-  
teen large caliber shells at the Rheims  
cathedral, damaging several important  
parts of the monument, Paris says.

Encouraged by their first success  
sixteen more heavy shells were  
thrown on the vaults. The northern  
tower suffered from the shelling and  
is leaning so its stability may give  
way at any time.

Declare British Army, Has Suffered  
Complete Defeat.

London, April 27.—The German  
newspapers are claiming victory in  
the battle of Arras, telegraphs the cor-  
respondent at The Hague of the Even-  
ing News. The Frankfurter Zeitung  
says:

"The second battle of Arras can  
never be made good by the British,  
who lost it at an enormous cost in  
men and material."

The Cologne Gazette says: "Ger-  
man troops look across the fields piled  
with corpses of the British army,  
which they have repelled success-  
fully."

The Cologne Volkszeitung says:  
"The Siegfried position has become

Mrs. W. A. M. Johnstone. The or-  
chestral parts will be played on the  
second piano by Miss Gladys Nitter-  
auer.

## LARGE CRADLE ROLL

Peoples Congregational Church Wins  
Praise at State Sunday School  
Convention

At the State Sunday School asso-  
ciation convention held in Minneapo-  
lis last week, it was announced that  
Crow Wing county had the honor of  
having the largest number of cradle  
rolls in the state.

Mrs. Jean E. Hobart, state super-  
intendent of elementary work in-  
formed Rev. William Lloyd Crist that  
outside of the three large cities, Min-  
neapolis, St. Paul and Duluth, the  
Peoples Congregational church of  
Brainerd has the largest cradle roll  
in the state. Their roll at present  
numbers 108 names.

Nuptials of Miss Ina Rosalie Sheridan

Celebrated at the

## FIRST CONGREGATIONAL CHURCH

All Friends of Church Invited—All  
Asked to be Seated by 10:15  
in the Morning

The month of May is to witness on  
its gala day a very pleasing wedding  
ceremony.

The Dispatch has received the fol-  
lowing announcement:

"Rev. Geo. Phil. Sheridan re-  
quests the honor of your pres-  
ence at the marriage ceremony of  
his sister Ina Rosalie to Daniel  
Estey Whitney, on Tuesday  
morning, the first of May, at  
10:30 o'clock at the First Con-  
gregational church."

Mr. Sheridan in commenting on  
this announcement stated that it was  
almost an impossibility to send writ-  
ten announcements to all both he and  
the parties concerned would like to  
see at the ceremony.

Therefore we are using the columns  
of this paper as a medium to request  
the honor of the presence of all our  
friends at the church.

People are asked to reach the  
church and be placed by 10:15. A  
musical program will commence at  
10:20 and at 10:30 promptly the  
bridal march will be played.

The special number at 10:20 will  
be a violin solo by Edwin Harris  
Bergh entitled Sonate IV by Handel,  
accompanied by Miss Evelyn Erick-  
son; Mendelssohn Wedding March  
will be used as the processional and  
Mendelssohn's March of the Priest as  
the recessional, both these pieces will  
be played by Miss Erickson with vi-  
olin accompaniment by Prof. Bergh."

## Farewell Party

A farewell party was given Miss  
Ruth Williams, shorthand instructor  
of the Brainerd Business College on  
Thursday evening. She is to leave  
Saturday for her home at Winchester,  
Tennessee. There was music and  
dancing, concluding with a supper  
served at midnight. It was held in  
the spacious rooms of the college in  
the Iron Exchange building.

## Notice to the Public

I will start a dressmaking shop at  
709 9th street north, May 1st and re-  
spectfully solicit your patronage.

BREAD LINE  
IN BRAINERD

Crowd Buys High School Girls Bread  
and Parker House Rolls From  
Clark's Yesterday

## H. S. BREAD IN MANY HOMES

Within 15 Minutes the Mound of  
Cookery Had Disappeared Like  
Snow in July Sun

A bread line, and for that matter,  
a Parker House roll line too, was  
formed on South Sixth street near D.  
M. Clark's store by people waiting to  
buy the product of the cooking classes  
of the high school.

Bread sold at 9c a loaf. The girls  
had the cost of the same figured out  
as follows:  $\frac{1}{2}$  cake of yeast .012,  $\frac{1}{2}$   
cup milk .012, 1 teaspoon of sugar  
.001, one teaspoon lard .008, 3  $\frac{1}{2}$   
cups flour .057, total 9c.

There were fluffy, luscious rolls,  
bread like mother used to make, etc.  
The price of a loaf of bread may ap-  
pear high, but there was probably  
twice as much material and nourish-  
ment in the loaf as an ordinary baker's  
loaf. Within 15 minutes the  
mound of bread and rolls was sold,  
the proceeds of which go into a fund  
for the purchase of school equipment.

## Babies

The baby is a small, active  
article of excitement. Its busi-  
ness in the world is to keep its  
father and mother hopping side-  
ways. It can do this better than  
almost anything else extant,  
with the possible exception of  
the doctor bill.

The largest thing about the  
baby is its appetite. Which it  
exercises several dozen times a  
day. You'd think they'd wear  
it out. But they don't. No.  
But they wear out everything  
else around the place, includ-  
ing mother's disposition.

The baby is not an absolute  
necessity. But it is customary.  
The great trouble with ba-  
bies though, is that they won't  
stay babies. They grow rapid-  
ly in all directions. They ac-  
cumulate, shed, and reacumulate  
late and shed flocks of hair and  
sets of clothes and teeth pro-  
miscuously.

Withal, babies are a great in-  
situation.

## Had Trouble Four or Five Years

Many people suffer from bladder  
trouble when they can be quickly re-  
lieved. W. J. Purry, R. F. D. 2, Sa-  
lem, Mo., writes: "I was bothered  
with bladder trouble four or five  
years. It gave me a great deal of  
pain. I took different medicine, but  
nothing did me any good until I got  
Foley Kidney Pills." H. P. Dunn,

## What is a Bath?

What is a bath? Is it the simple  
bath of hot or cold water and soap,  
or the Turkish bath of hot air or the  
Russian one of steam, or the mud bath  
of St. Armand-les-Eaux, or the com-  
pressed air bath of Reichenhall, or the  
baths of wine favored by famous beau-  
ties, or the sun bath of modern hy-  
gienists, or the Laplander's plunge into  
the hot blubber of a just killed whale,  
or the bath of asses' milk, to provide  
which for his consort an Earl of Port-  
man bought cheap the Portman estate  
north of Oxford street as a farm to  
keep a herd of asses? Now, which of  
these, think you, is a bath?—London  
Chronicle.

## An Ironing Hint.

When ironing it is a great help to  
have a common sponge and a dish of  
water handy to dampen the clothes  
where they are too dry for ironing. The  
sponge is much better than a cloth for  
that purpose, and, if necessary, dry  
clothes can be ironed at once if a  
sponge is used for dampening same.

Summer is Coming  
And so are Furs

By MARGARET MASON

(Written for the United Press)  
You can't escape a cape, my dear  
This summer you must wear  
The pelt of some four footed beast  
When you do take the air  
And hide your shapely shoulders  
neath

Some creatures hide and hair.  
New York, April 27—You have to  
go far to see the Cape of Good Hope  
but you don't have to go far to see  
the cape of good style although it's  
fur all right. It may be gopher too  
at that but the chances are its kol-  
insky or ermine or mink or sable or  
mole or Hudson seal. All the really  
smart fur capes are made up of one  
or a combination of two of these six  
soft silky skins selected suitably sar-  
torially for summer time showing.

As one little sable pelt is a big hit  
you may be sure a full ripply cape of  
sable is some knockout. Such a one  
falling to the waist line in front and  
running to a deep point below the  
waist in back has a broad rolling col-  
lar of unspotted ermine fastening in a  
low V shaped front.

Another one of mink with a shawl  
collar of ermine has fitted front and  
a full deep ripple back for all the  
world like an old-fashioned dolman.  
Little short shoulder capes of Hudson  
seal or mole are quaint and charming  
and a graceful wrap is one of chiffon  
thrice banded, once at neck, midway  
and again around the edge with kol-  
insky.

Oh where are the white foxes of  
yesterday? Last summer the foxiest  
of summer furs was white fox. This  
summer some are fox but most are  
not. To be sure foxes, red, white or  
silver are not to be shrugged off too  
disdainfully by summer shoulders  
but they are seldom seen in compari-  
son with their last season's omni-  
presence and the fur cape really is  
the thing.

Long flat broad stoles of the seal,  
mole and ermine are the greatest riv-  
als of the cape for favor with the  
summer girl and the cape may yet  
rule the day that a stole stole its first  
place in Miss Summer's wardrobe and  
affections. The ermine stoles are al-  
most always finished on the ends with  
a row of the tiny tails and indeed on  
both the capes and stoles of the other  
furs the tail trimming is very often  
used. Indeed these oft repeated tails  
are an old story but always good.

Of all the summer furs ermine  
best lends itself from an artistic and  
adaptable standpoint to summer tol-  
ettes. It sets off a frock of silk  
Georgette crepe or a lingerie gown  
with equal perfection and has a more  
light and fluffy effect and a less heat-  
ful appearance than the other furs.  
In an ermine cape you may be at  
white heat when it is two hundred in  
the shade but you'll never look it.

As a dress trimming as well as a  
wrap ermine is almost effective sum-  
mertime fur and a white Georgette  
frock banded in it is the white of  
perfection. A white organdie gown  
with a band on of ermine must needs  
be greeted also with joy and abandon  
as the summit of summer sartorial  
art.

As a compromise with going to fur  
this summer maribou is again putting  
forth its fine feathers in wide bands  
around the neck, sleeves and full  
skirts of charmeuse coats in the same  
manner that the wide bands of fur  
were used on the fur coats this last  
winter. After all perhaps it were  
safer to stick to maribou if we want  
to be sure what we are wearing.  
When it is marked down we know it  
is down but no matter what mark is  
on fur we feel we are the mark if  
we buy it. When you are simply dy-  
ing to buy a mink collar or the fur-  
rier is probably simply dyeing a pussy  
cat to sell it to you. Indeed the fur  
trade is a double skin of both you  
and some other poor animal. Per-  
haps its just as well you can't split  
hairs too finely in the fur buying for  
it is so much more comfortable not  
to know that the ermine hair you  
think you are wearing is just plain  
hare.

A man acting a cheerfulness he doesn't  
feel is never a very good actor.

Colorado First to  
Start Food Drive

(By United Press)

Denver, Colo., April 27—Colorado,  
the first state to act when the impor-  
tance of the bread basket's part in the  
war became known, has virtually  
completed organization of the admini-  
strative machinery for the biggest  
"food drive" in the history of the  
country.

Immediately following the declara-  
tion of war, Gov. J. C. Gunter antici-  
pated the national movement by  
naming a ways and means committee,  
headed by J. K. Mullen, president of  
the Colorado Milling and Elevator  
company, and Ex-Gov. Ammons, one  
of the state's largest farmers.

The committee already has com-  
pleted organization of a sub-commit-  
tee in every county, of the state.  
Working on the assumption that mon-  
ey, or its equivalent credit, is the  
greatest need of farmers to meet the  
crisis, the committee has assured  
farmers capital with which to finance  
his food-raising operations.

The home gardening movement  
was given tremendous momentum by  
the outbreak of war. The Civic and  
Commercial association of Denver is  
urging a movement whereby em-  
ployees will agree to pay full wages to  
employees, but allow them one work-  
ing day off each week, provided they  
work their gardens on that day. Un-  
der the auspices of the Denver Mothers'  
congress, 50,000 packages of  
seeds are being distributed without  
cost to school children.

Mrs. Cecelia Ward Shea, a promi-  
nent civic worker, has inaugurated a  
project, advocating that the state it-  
self turn farmer, and lease or rent  
approximately 15,000,000 acres of  
tillable land in the state which has  
never been cultivated, sub-letting this  
to families who would come into the  
state, she believes, if they were as-  
sured of ground to farm, at a low  
rental.

## A Word to Mothers

There seems to be more than the  
usual number of children suffering  
from measles, whooping cough and  
other children's diseases this spring.  
Do not neglect any cold, for a cold  
weakens the system and makes a  
child more liable to attack of more  
serious ailments. Foley's Honey and  
Tar relieves coughs, colds and croup.

## Gray Leaved Plants.

Next to green, gray is the restful  
and most satisfactory color to be had  
in foliage.

We now have so many hardy plants  
with gray foliage that we can choose  
one for each month of bloom and color  
of flower. Among them are the silvery  
milkfoil, gold dust, the white and  
purple rockrose, the woolly leaved chick-  
weed, many hardy pinks, Siebold's day  
lily, Fischer's horned poppy, lavender  
cotton, woundwort and woolly thyme.  
Some of these are decidedly silvery.  
Others incline to a blue cast, which is  
most pronounced in the globe thistles  
and sea hollies. Such colors are so un-  
usual in nature that it is easy to over-  
do them in gardens.—Country Life in

YES! MAGICALLY!  
CORN LIFT OUT  
WITH FINGERS

You simply say to the drug store  
man, "Give me a quarter of an ounce  
of frezone." This will cost very little  
but is sufficient to remove every hard  
or soft corn from one's feet.

A few drops of this new ether com-  
pound applied directly upon a tender,  
aching corn should relieve the sore-  
ness instantly, and soon the entire corn,  
root and all, dries up and can be lifted  
out with the fingers.

This new way to rid one's feet of  
corns was introduced by a Cincinnati  
man, who says that, while frezone is  
sticky, it dries in a moment, and sim-  
ply shrivels up the corn without in-  
flaming or even irritating the surround-  
ing tissue or skin.

Don't let father die of infection or

but clip this out and make him try it.

In qualities of steels; in development of design;

There was an old lecturing domine who was strong in astronomical similitudes and calculations. "Arcurus," he would declare, "is 792,648,925 miles distant from the sun."

"But, domine," some surprised auditor would interrogate, "how in the world do you arrive at these specific figures?"

The answer would come with crushing dignity and the tone of intellectual superiority: "I assert it, sir. Disprove it if you can."

ROOT ACCEPTS HEAD  
OF RUSSIAN MISSION

Washington, April 27.—Elihu Root, former secretary of state, after conferences with President Wilson and Secretary Lansing, formally accepted the chairmanship of the American commission to Russia.

Mr. Root spent an hour with the president at the White House discussing the Russian situation. The president outlined fully what he desired to accomplish.

The commission will be composed of three or four principal members and a staff of secretaries and assistants. It is expected to leave for Russia within a few days.

The needs of Russia as outlined to President Wilson are for political, financial, transportation and commercial advice and assistance.

SINEWS OF WAR

Money Will Be Forthcoming  
Willingly and In Abundance.

TO TRAIN ARMY, HOWEVER

Which Will Be Sent to France Unless  
Germany Is Defeated Before It Can  
Be Properly Trained and Furnished  
With Equipment—Some Think Our  
Regulars Are Ready.

By ARTHUR W. DUNN.

Washington, April 25.—[Special.]—The sinews of war, so far as the United States is concerned, will be forthcoming in all the abundance of a generous nation. The United States is ready and willing to do everything it can to help the allies defeat the central powers and end the war in the shortest possible time.

It was Senator Sherman of Illinois who remarked that he would cheerfully vote even larger sums to the allies, and he was not particular whether it could be repaid or not. He went on to say that the United States had now entered upon a war in the aid of civilization and so far had been unable to do its part. Consequently it ought to afford the allies all the money and supplies that they could use.

Must Have Supplies.

Another sentiment expressed in this same line was to the effect that, no matter how the United States may be affected, it was necessary for this government to see that the allies were supplied with all the munitions and food necessary to carry on a successful war.

In all of the opinions which are heard from public officials on the subject of the war there appears lingering in the background the hope that the United States' part in the war will be in the way of furnishing money and supplies and that American troops will not be needed.

An Army to Be Prepared.

At the same time there is no question about the organization of an army, and many hundreds of thousands of men may take their places on the blood stained battlefields of Europe if that army can be organized in time to do any fighting. It seems to be a foregone conclusion that it would be the height of folly to send untrained forces into the battle area of France until they were armed and equipped and, what is more important, trained in what is known as modern warfare.

There is an impression that our regular and large bodies of the national guard have had a great amount of drilling and experience on the Mexican border. It is the opinion of experts of the war, however, that this training will avail but little against the seasoned troops of Germany which must be encountered if our armies take part in the war in Europe.

An Irritating Advertisement.

There was read into the Congressional Record a short time since an advertisement of the Canadian government which caused a great deal of dissatisfaction among those who have given any attention to it. It was an effort to secure in the United States large bodies of men to work on the farms in Canada, and, besides offering high wages and announcing that there would be no compulsory military service, there was also an offer of 100 acres of land on more liberal terms than could be secured in the United States.

This advertisement caused a great deal of irritation among Americans at the present time, just when the United States is bending every effort to do what it can to assist the allies with money at once and troops in the future. Some of the comments said the advertisement approached close to treason to this country in times like these, when men are needed in the United States more than ever before.

And yet advertisements similar to this have been appearing in the papers of this country for many years.

Cabinet and the Presidency.

Only seven cabinet officers have become presidents. They are Jefferson, Madison, Monroe, John Quincy Adams, Van Buren, Buchanan and Taft. The first six had been at the head of the state department, while Taft was secretary of war.

Official service in Washington, whether in the senate or house, has not led to the presidency. Only one speaker has reached the White House. William McKinley was the only man who had served in the house to reach the presidency in many years.

The Colonel and the War.

It is yet uncertain whether Colonel Roosevelt will be given a position of great prominence in the war. There is grave doubt among officials whether he would be the best man to send at the head of the first contingent of American troops. This view is shared by a great many army officers, who feel that they are fully equipped, after many years of service and study, to handle troops and co-operate with foreign commanders. Under some circumstances it might be considered as desirable to send Colonel Roosevelt as a military commander of the first expedition, but that is among the problems which the present administration must solve.

St. Paul Police.

SENSATIONAL NIGHT TRAGEDY

Divorced Wife of Frank Dunn Shot to  
Death While Sleeping at Her Father's  
Home—Authorities Believe the  
Crime Was Deliberately Planned  
and Executed.

St. Paul, April 27.—While every available police officer in St. Paul, aided by almost the entire Northwest constabulary, was at work to hunt out and apprehend the murderer of Mrs. Frank J. Dunn, who was shot to death in her father's house at 1:30 a. m. Thursday, Frank Dunn, the victim's husband, was locked in the Ramsey county jail by orders of Chief of Police John J. O'Connor and County Attorney R. D. O'Brien.

No charge was placed against Dunn, but the man, the police admit, is suspected of complicity in the killing of his young wife, beautiful member of an old St. Paul family, that of J. F. McQuillan.

Dunn denied any part in the death of his wife.

Twice called to Central police station by the police and twice released, once after a lengthy questioning by County Attorney O'Brien and Chief of Police O'Connor, Dunn was followed everywhere by plain clothes men, given many opportunities to try to escape or communicate with possible accomplices.

When no such attempts were made the case remained shrouded in almost the same thick veil of mystery that had enveloped it since three shots rang out in the night and the McQuillan family was startled from sleep to find Mrs. Dunn beaten and shot dead while she lay in her bed with Katherine McQuillan, her nineteen-year-old sister.

Family Give Police Clues.

Mr. and Mrs. McQuillan, their sons, Tommy and Warren, and their surviving daughter, Katherine, recovered from the horror of St. Paul's most sensational murder since the Arbogast

Does It Pay to Rent?

You can find people who will figure it does, but there are many more who will tell you it does not.

Considering the present cost of living, we are sure you will find interest on investment plus taxes will be less than rent, especially when you remember that after interest and taxes are paid you HAVE something—A HOME—while after your rent is paid you have nothing but a bunch of receipts.

Which had you rather have—a home or a bunch of receipts?

case in 1910 to tell a connected and logical story of the affair. They gave the police, the latter say, certain definite clues on which to work.

They were unable, however, to furnish any adequate description of the slayer.

Though suspected of complicity in the assault Frank J. Dunn did not enter the McQuillan home and had no active part in it, according to Chief O'Connor.

The police believe that Mrs. Dunn's slayer or slayers entered the house with the deliberate intention of killing her.

Her assassins planned carefully how her end should be brought about, went about the job with extreme care which may have taken weeks, took precautions to make no mistakes in

her identity and schemed with equal cunning their escape.

Gradually these things became increasingly evident as the police examined the scene of the murder in detail and compared the results of their work.

It was found that, before entering the room where Mrs. Dunn slept with her younger sister, the murderer had entered at least two other rooms on the second floor.

## BASEBALL OUTLOOK GOOD IN CROSBY

(Crosby Crucible)

Local baseball fans are not going to be denied the privilege of witnessing some real good games this summer despite the war, according to information given The Crucible by Manager Edward Krueger yesterday.

Earlier in the season there appeared to be some question as to whether Crosby would have a team owing to the fact that many of the local boys had been called to the colors to defend our country and whether it would be advisable to organize a team under existing circumstances, but nevertheless arrangements have been completed and a fast team is promised us.

Subscriptions to the amount of \$400 a month have already been subscribed by local business men, which amount together with forthcoming gate receipts will no doubt provide amply toward the up-keep of a first class aggregation.

Manager Krueger has been in correspondence the past two weeks with a number of professional and semi-professional players and states that the men who he has already signed up come with the very best of recommendations and with the local players who will comprise a part of the team Crosby will undoubtedly make a name for herself in the Minnesota baseball world.

The town's new baseball park which was completed last year at considerable expense is conceded by all to be one of the finest in the northwest and it is the intention of the management to have everything in readiness for the opening game about May 6th.

New uniforms and the necessary supplies are now being selected.

Hi Torason, a southpaw from Eau Claire, Wis., who has played in an eastern league the past two seasons has been secured to do the pitching and A. W. Hoffmeister, of Minneapolis as catcher. Others thus far signed up are A. Walthman, outfielder; Adrian Barbeau, second base; Sveede Erickson, well known short stop formerly with the Brainerd team and three local players, August Grandberg, third baseman, John Krueger and Frank Redfield, fielders.

Games with Ironton, Brainerd, Aldin, Little Falls, Staples, Verdale, Frazee, Moose Lake and Saint Cloud, will be arranged for and possibly a number of other towns in northern Minnesota.

## GERARD PLEADS FOR DRAFT PLAN

Former Envoy to Berlin Gives Sensational Reasons.

## GERMANY PLANNED INVASION

At Conclusion of War in Europe Teuton Government Intended to Dispatch Army and Navy to the United States to Wage Campaign of Conquest.

New York, April 27.—James W. Gerard, former American ambassador to Germany, appealed to the entire country to stand by President Wilson and to urge congress to pass the administration bill for universal, obligatory military service.

He declared he knew that if Germany had won either a draw or a victory in the war she would have attacked the United States, regardless of whether America had entered the war. Mr. Gerard was speaking at the annual dinner of the American Newspaper Publishers' association.

Major General G. T. M. Bridges of the British war commission was the guest of honor at the dinner.

The representative of the British army on the commission headed by Foreign Minister Balfour, who told with pride of having fought under Marshal Joffre at the Marne, was given an enthusiastic welcome.

"He is the man of whom it may be said that he saved the civilized world at the battle of the Marne," the soldier of England said in his tribute to the great French commander.

Speaking as the representative of Mr. Balfour, General Bridges brought with him something of the spirit of the battlefields of France and Belgium.

## Saw Work of Ruin in Belgium.

He was able to tell from his personal experiences something of the scourge of Belgium at the beginning of the war. It was not the work of undisciplined soldiers, he declared, but the deliberate plan of the highest German army authorities.

Patriotism was the dominant note of the dinner from the decorations to the speeches. Job E. Hedges, the toastmaster, proposed a composite toast, to the president, the king of England and the president of France.

Mr. Gerard called on every publisher to send a telegram to his paper directing it to come out flatly for the administration bill and support it by every means in his power.

"Germany is from 100 to 200 years behind the times in liberty and democracy," Mr. Gerard asserted. "There may be riots there," he said, "but there will be no revolution."

To a certain extent, the former ambassador said, the entrance of the United States in the war was due to the misrepresentation of American sentiment in Germany and German newspaper men of pro-German sympathies, who were stationed in Berlin.

"The worst enemies in the country today," Mr. Gerard declared, "are the insidious enemies here at home who misrepresent facts."

## Plan to Attack America.

Referring to Germany's military ambitions before the war Mr. Gerard said Admiral von Tirpitz openly had advocated the seizure of the coast of Flanders as a base for operations against England and America. The Von Tirpitz party now is in the ascendancy, he said.

Germans of all types, Mr. Gerard explained, advocated bringing England to her knees, seizing her navy and using British warships to operate against the United States, thereby forcing this country to pay all the expenses of the conflict.

He placed emphasis on the Russian situation and asserted that if it withdrew from the war of it acts ineffectively the United States will be brought face to face with German autocracy.

"Let no man, be he rich or poor, laborer, farmer, miner, manufacturer, business man, or whatever his occupation, or in what interior part of the country he may live, believe this is not his war," Mr. Gerard said. "The lives and safety of himself and his family and the preservation of his property and the right to enjoy the fruits of his labor or industry depend on its successful outcome. There is no outrage that would not be perpetrated upon us if we lost; and no citizen or section would be immune."

Major General Leonard Wood, who spoke briefly, said he hoped sooner or later to be serving with General Bridges on the French front.

Other speakers were N. W. Rowell, a member of the Ontario legislature; Irving Cobb and William Hard.

## BY DECISION OF TRUSTEES

Postal Bank Millions Will Be Loaned to Farmers.

Washington, April 27.—Part of the \$125,000,000 deposited in postal savings banks will be made available for farm loans by a decision of trustees of the postal savings bank system to accept at par farm loan bonds which will be issued soon to secure savings deposits.

Applications for loans already received by the farm loan board indicate that farmers will borrow more than \$100,000,000 this year through the land bank system to help solve problems of shortage of labor and high prices of seeds.

From a single county in Montana, the farm loan board was notified, the planting of 200,000 acres of spring wheat depends on loans of money to buy seed.

## SPECULATION CAUSE OF HIGH FOOD PRICES

Washington, April 27.—Results of the first congressionally authorized and paid for price inquiry, as a result of the recent soaring prices throughout the nation, have been reported.

The inquiry was conducted in the nation's capital. Some sensational disclosures were laid before congress in the report, which said similar conditions undoubtedly prevailed in other cities.

Conditions unearthed may be taken as a criterion of what the federal trade commission may find in its nationwide investigation. The investigators found:

Reports of food shortage were misleading.

Prices in many cities were unusually high.

The poor have been compelled to resort to strictest economy to provide food.

Consumers are exhibiting more frugality than ever before; the falling off in garbage collections proves this.

Shipments of foodstuffs were abnormally held up and the food supply therefore abnormally depleted.

The element of speculation in food products had been one of the potent factors in enormous increase of prices.

Shipments of food to belligerent countries have not affected prices of potatoes, eggs and onions, but prices on these commodities soared with prices of other goods.

## DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ash, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.
